

# St. John's Prep STEM Building

Architect: Flansburgh Architect  
Contractor: Windover Construction  
Location: Danvers, MA

A new STEM facility was built at St. John's Prep which houses robotics and computer classrooms, science labs, and department offices. New England Caseworks was chosen to fill these spaces.

## Wood Veneer Casework

- Plain-sliced White Oak
- Student workstations
- Base and wall cabinets
- Customized mailbox unit

## Work Surfaces

- Epoxy Resin

## Teaching Wall
